ISWD652 CALIDAD DE SOFTWARE

Resumen General de Measures

Resumen de líneas de código

The image shows the 'Code' tab in SonarQube, displaying a table of code metrics for the project 'BrailleTractorTest'. The table has columns for 'Lines of Code', 'Security', 'Reliability', 'Maintainability', 'Security Hotspots', 'Coverage', and 'Duplications'. The table shows two rows of data: 'Idea' and 'Version_1'.

	Lines of Code	Security	Reliability	Maintainability	Security Hotspots	Coverage	Duplications
BrailleTractorTest	—	—	—	—	—	—	—
Idea	69	0	0	0	0	0.0%	0.0%
Version_1	7,409	0	44	317	7	0.0%	6.1%

2 of 2 shown

Embedded database should be used for evaluation purposes only
The embedded database will not scale, it will not support upgrading to newer versions of SonarQube, and there is no support for migrating your data out of it into a different database engine.

SonarQube™ technology is powered by SonarSource SA
